On May 15th, Pope Leo XIV published his first encyclical entitled **Magnifica Humanitas** on safeguarding the human person in the time of artificial intelligence. I would like to share some quotes compiled from **Ascension Press** from the document for your information and reflection:

1. *In the era of artificial intelligence, when human dignity is threatened by new forms of dehumanization, ours is the pressing duty to remain profoundly human. We must lovingly safeguard the grandeur of humanity bestowed upon us and revealed in its fullness in Christ, the splendor of which no machine can ever replace. True progress always stems from a heart open to others, an intelligence willing to listen, and a will that seeks what unites rather than what separates. (Magnifica Humanitas, 15).*
2. *The Church reminds us, with a firm yet humble voice, that true fulfilment is not achieved by eliminating weakness but through harmonious growth. It is found where freedom and responsibility are intertwined with mutual care and true solidarity, and where progress is measured by the dignity of each person and the good of all peoples (Magnifica Humanitas, 12).*
3. *This is the blessing we implore from God; and the task that stands before us is that of being builders of communion, rather than architects of Babel. We are to be servants of the coming Kingdom, instead of lords of towers destined for ruin (Magnifica Humanitas, 16).*
4. *No one can single-handedly bear the weight of the challenges the world is facing, just as no one is so weak that they cannot play their part, for 'power is made perfect in weakness' (2 Cor 12:9) (Magnifica Humanitas, 13).*
5. *Let us not be afraid to get our hands dirty on the "construction site" of our time (Magnifica Humanitas, 16).*
6. *Human dignity does not depend on a person's abilities, wealth or position in life, nor on the right or wrong choices made; instead, it is a gift that precedes and transcends each person, endowed by God as an expression of his unfailing love (Magnifica Humanitas, 50).*
7. *Today, among the goods that are universally intended for everyone, we must also include new forms of property, such as patents, algorithms, digital platforms, technological infrastructure and data (Magnifica Humanitas, 67).*
8. *The most extraordinary scientific progress, the most astounding technical feats and the most amazing economic growth, unless accompanied by authentic moral and social progress, will in the long run go against man (Magnifica Humanitas, 94).*
9. *The danger, here, is not so much that a person may believe they are communicating with another person, but rather that they may gradually lose the very desire to form genuine human connections (Magnifica Humanitas, 100).*
10. *The creative intelligence of humanity is a gift that can alleviate suffering and open up new possibilities, but it must remain ordered toward the common good, justice, the care of the vulnerable and creation (Magnifica Humanitas, 129).*

I WANTED A BETTER MARRIAGE

“We decided to attend Retrouvaille because I remembered my aunt and uncle's marriage was so different from everyone else's in my family. They never argued, always seemed calm and loving, and spoke to each other with such respect. Later, I found out they had gone through a marriage help program similar to Retrouvaille. That's what I wanted—a better, healthier marriage. Now, after attending, I have the tools to make that goal a reality.”
